Profile Knives

Wood-Mizer profile knives are the best choice for every planing/moulding operation. Our offer starts from 4 mm thick standard profile knives produced in steel quality HSS 6% and it extends to HSS 18%, HM or other custom dimensions. The entire range of cutting tools excel the competitive products as they are carefully engineered on a dedicated software and manufactured in EDM process (Electrical Discharge Machining). As a result, the customer gets a profile knife with precisely calculated angles of cutting, not requiring any final grinding and always keeping constant parameters of work.

Item No. explanation:

Products starting with

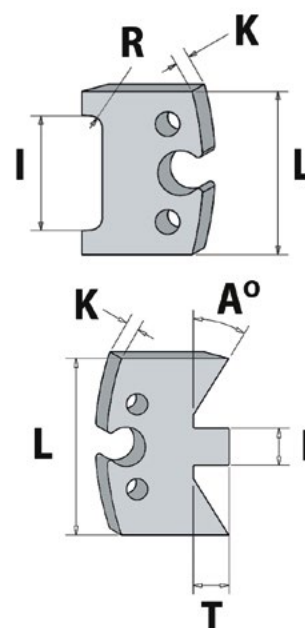

TPPK94xxx - L = 40mm width, xxx = particular number of profile knife

TPPK95xxx - L = 50mm width, xxx = particular number of profile knife

TPPK96xxx - L = 60mm width, xxx = particular number of profile knife

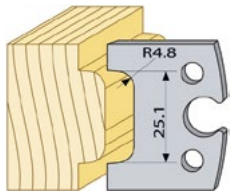

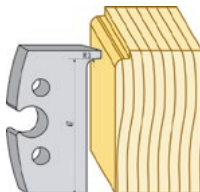

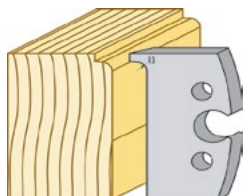

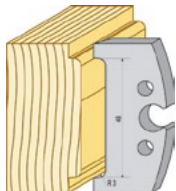

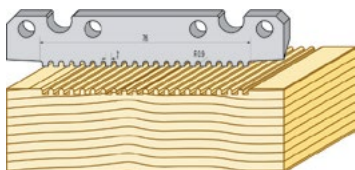

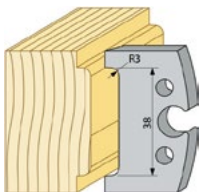

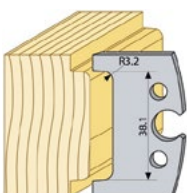

TPPK910xx - L = 100mm width, xxx = particular number of profile knife

TPPK913xx - L = 130mm width, xxx = particular number of profile knife

TPPK94248HSS	Knife for flooring and decking	40	2
TPPK94647HSS	Knife for flooring and decking	40	2
TPPK94261HSS		40	1

Item	Description	Pairs	Image
KIL-038	Wedge	3	

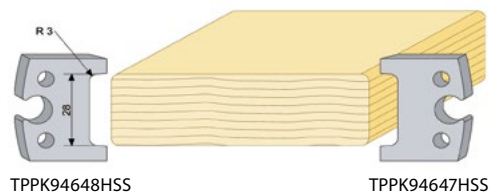

Examples of usage:

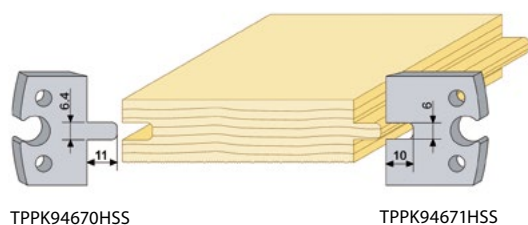

- Exterior and interior shi lap. 12.7mm rabbet.

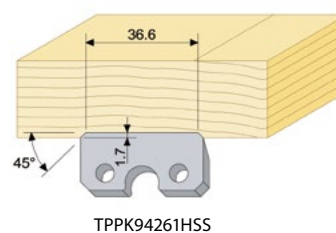

- Interior and exterior siding and panelling, V-joint, tongue and groove

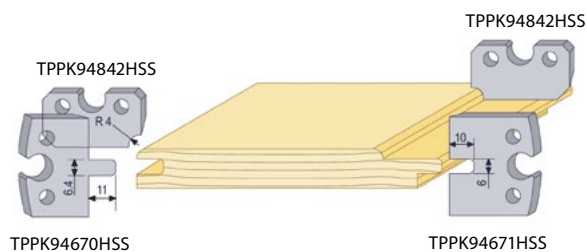

- Interior and exterior panelling. Tongue and groove.

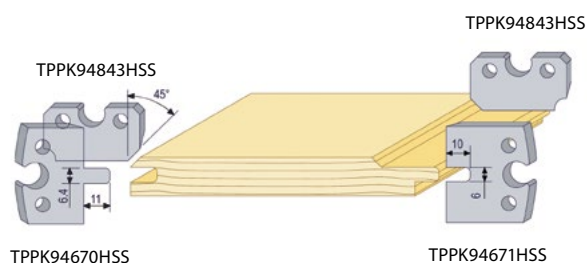

- Back cut-out relief knife for siding and panelling.

- Interior and exterior siding and panelling. Radius 4 tongue and groove.

- Interior and exterior siding and panelling. V-joint. Tongue and groove.

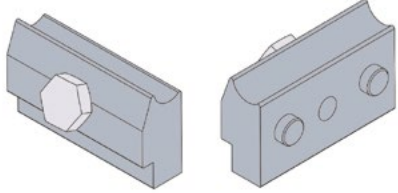

Extended Knife Set for MP260

Item: TPPKMP260EXT.WM

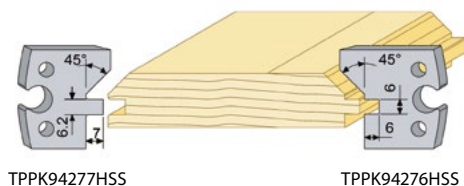

This package includes 11 pairs of profiling knives (40 mm),
4 pairs of profile knives (60 mm) for producing siding, panelling, shiplap, and decking.
The MP260 extended set comes with 3 pairs of KIL-038 wedges.

STRAIGHT PLANER KNIVES • SIDE CUTTERS • PROFILE KNIVES • SAW BLADES

Wood-Mizer Industries, Poland

Since 1982, Wood-Mizer has taken thin-kerf, narrow-band technology and production well beyond what anyone ever imagined possible. Because of the company's rich history of patents and innovative designs that challenge traditional thinking, Wood-Mizer is recognized as a worldwide leader in the forest industry.

Through a network of locations and dealers around the globe, Wood-Mizer provides solutions to customers that require everything from a single machine to complete systems to efficiently and profitably process wood.

Wood-Mizer®
from forest to final form
