

AGM Range A03

Eternity Technologies offers powerful batteries for cyclic applications. The AGM Range A03 of Bloc Batteries is designed for universal cyclic applications.

Eternity Technologies is an exclusive contract partner for products of Discover Energy Corp.

Maintenance-free bloc batteries in AGM technology (no topping up during lifetime)

Good high-current performance

High-class patented safety valve

> 330 cycles (DIN EN 60254-1) (IEC 254-1)

Capacity: 6–105 Ah (C₅)

Valve-regulated, lead-acid battery

Recyclable

Long cycle life

Manufactured by

DISCOVER
ENERGY CORP.

Applications

Electric wheelchairs

Golf carts

Electric working platforms

Motive power applications, e. g. pallet trucks

Cleaning machines

Caravans and boats

Solar

Bloc Batteries

AGM Range A03
