+ info saheco.com

ES

SV-A40 / SV-A60 / SV-A80 / SV-LARGE / SV-EASY 60 / SV-EASY 80 / SV-EASY LARGE / SV-L son soluciones de puertas correderas de cristal suspendidas, sin marco y de alta calidad. Ideal para divisiones y puertas de uso doméstico o comercial de peso ligero o medio. Los modelos más clásicos de Saheco.

CARACTERÍSTICAS

Una amplia gama de mecanismos de fijación y componentes de acabado estético, pensados para la perfecta adaptación a cualquier tipo de requisito de diseño. Aplicaciones estándar para hojas de 40, 60 y 80 kg de peso por hoja respectivamente. Disponen de distintas opciones de perfilera superior según las necesidades de cada instalación. También cuenta con opciones para panel fijo gracias a la adición de los perfiles para dicha solución. Tapetas opcionales en distintos acabados para ocultar el perfil superior y los accesorios; y posibilidad, también, de incorporar tapetas laterales que permiten una solución de fijación lateral ordenada y estéticamente agradable. Pinzas de alta calidad con roldanas montadas sobre cojinetes a bolas para asegurar una acción suave y silenciosa; y como es habitual en los sistemas Saheco, regulación vertical, en este caso de +/-2mm. Disponibilidad de 3 guías inferiores distintos y posibilidad de instalar softbrake (freno amortiguador) para amortiguar los 100 últimos milímetros de recorrido de la hoja.

No se requiere mecanización del vidrio en ninguna de las aplicaciones.

EN

SV-A40 / SV-A60 / SV-A80 / SV-LARGE / SV-EASY 60 / SV-EASY 80 / SV-EASY LARGE / SV-L are solutions for high quality suspended, frameless sliding glass doors. Ideal for lightweight or medium weight dividers and doors for home or commercial use. Saheco's most classic models.

FEATURES

A wide range of securing mechanisms and aesthetic finishing components, designed to adapt perfectly to any type of design requirement. Standard applications for panels of 40, 60 and 80 kg in weight per panel respectively. There are different options for top tracks depending on the requirements of each installation. There are also options for a fixed panel (F) thanks to the addition of tracks for this solution. Optional covers in various finishes to hide the top track and the fittings; and also the possibility of incorporating side covers that allow an orderly and aesthetically pleasing attachment solution. High quality clamps with rollers mounted on ball bearings to ensure a smooth and silent action, and as usual in Saheco systems, vertical adjustment, in this case of +/- 2mm. Availability of three different bottom guides and the possibility of installing a softbrake (damping brake) for the last 100 millimetres of the panel's run.

No drilling of glass required.

FR

SV-A40 / SV-A60 / SV-A80 / SV-LARGE / SV-EASY 60 / SV-EASY 80 / SV-EASY LARGE / SV-L sont des solutions de portes coulissantes en verre suspendues, sans encadrement et de qualité supérieure. Idéales pour les divisions et portes à usage résidentiel ou commercial au poids léger ou moyen. Les modèles classiques de Saheco.

CARACTÉRISTIQUES

Vaste gamme de mécanismes de fixation et composants à la finition esthétique, conçus pour répondre parfaitement à n'importe quelle exigence de design. Applications standard pour battants de 40, 60 et 80 kg par battant respectivement. Différentes options de huisserie supérieure en fonction des besoins de chaque installation. La gamme propose également des options pour panneau fixe (F) grâce à l'ajout des profils destinés à cette solution. Option de caches en différentes finitions pour masquer le profil supérieur et les accessoires ; et possibilité d'intégrer des caches latéraux qui permettent une solution de fixation latérale ordonnée et esthétiquement agréable. Pinces de grande qualité avec galets montés sur coussinets à billes pour une action silencieuse et en douceur. Enfin, comme toujours dans les systèmes Saheco, réglage vertical, ici de +/-2 mm. Disponibilité de 3 guides inférieurs différents et possibilité d'installer Softbrake (frein amortisseur) pour amortir les 100 derniers millimètres de parcours du battant.

L'usinage du verre n'est nécessaire sur aucune des applications.
