Product information

Front laser

Protective bag with belt loop

Carrying loop

**DATA**

ITEM NO.	10108
DIMENSION MM	L 121 mm x B 45 mm x H 25 mm
WEIGHT KG	0,105 kg
PROTECTION RATING	IP 54
MEASURING RANGE	0,05 m - 80 m
MEASURING TOLERANCE	± 1,5 mm
LASER CLASS	II
MEASURE RANGE OF TILT SENSOR	360 Grad
ACCURACY OF TILT SENSOR	± 03 *
LASER TYP	620 - 690 nm, < 1 mW
BATTERY	AAA 2 x 1,5 V
EAN-Code	9120045474893

* This is the typical value. Depending on the environment the deviation can rise slightly.

DESCRIPTION

The portable RM 80 laser distance meter offers precise measurement of distances up to 80 meters and a variety of calculation functions. Equipped with an angle and tilt sensor and an illuminated display, it is easy to read even in difficult conditions. With a wide measuring range from 0.05 m to 80 m and an accuracy of ± 1.5 mm, it ensures exceptional precision. Thanks to the extensive calculation functions (Pythagoras, angle, volume, triangle calculations, ...), the device is very versatile. In addition, up to 99 measurement results can be saved, making it easier to work on larger projects. The IP54 protection class ensures protection against dust and splash water, making it ideal for use on construction sites.

Scope of delivery: 1 x RM 80 Laser distance meter incl. protective bag with belt loop and carrying loop

ADVANTAGES

- Extra powerful laser - up to 80 meters
- Extensive calculation functions
- Incl. angle and inclination display (Pythagoras)
- Storage of 99 measurement results

MEASUREMENT EXAMPLES
