

Hidden away in the foothills of the Spanish Pyrenees, lies the Garrotxa region: a sparsely populated area dotted with medieval villages and volcanic landscapes cloaked in woodland.

“

We are delighted with the impact of the nemi service in La Garrotxa, TEISA shares the same goals as Nemi in providing more sustainable and inclusive mobility services for the regions citizens.

About THE SERVICE

The nemi DRT service connects villages and remote areas in Sant Esteve d'en Bas and provides a reliable and frequent connection to the urban core, Olot, on a route that previously had no public bus service running.
