let kompac put you in
the coating business

FEATURES

The **Kompac Kwik Finish 32** is an exciting offline coating and curing system, providing a Kwik and EZ way to apply UV, aqueous, primer & specialty coatings to a wide variety of substrates. Whether paper or plastic; digital output or offset, each job will have the visual appeal, lasting durability, protection and rub resistant finish that your customers expect!

- Automatic double-sheet detector
- Stream Feeder with continuous pre-load
- Removable cylinder grippers
- Equipped with Interlocking safety guards & E-stops
- Circumferential and Lateral registration for accurate spot coating
- Flood & spot coat as well as spot not coat (allowing areas to be free of coating for variable data printing)
- Kwik release blanket bars (for fast job changes)
- Auto coating level pump & sensor (automatically replenishes coating when it is low)
- Patented Kompac Air Delivery System provides 'non-contact' delivery of the coated sheet

"Patented" Kompac Coating System

- Provides on-the-fly coating adjustments
- Produces the highest quality gloss and a perfect finish every time
- EZ to clean and change coatings - With the patented **"Kompac Vac"** and our **environmentally friendly UV Klean**, coating change and clean up takes 5 minutes
