

Carta de Colores.

GRADCOLORS®

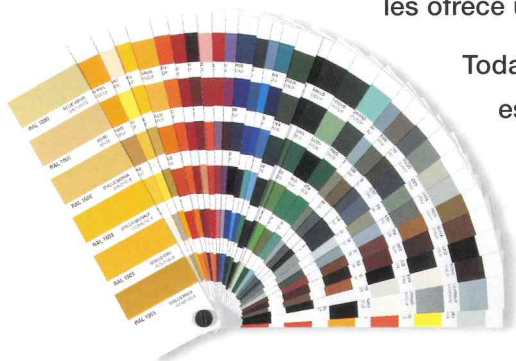

GRADHERMETIC®

INDUSTRIAL GRADHERMETIC, S.A.E.

Los colores que nos da la Gama.

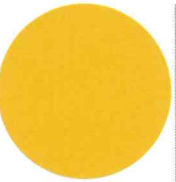

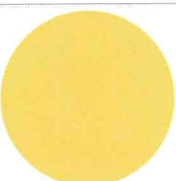

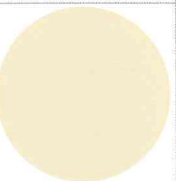

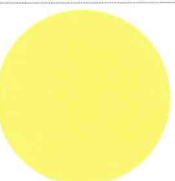

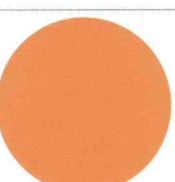

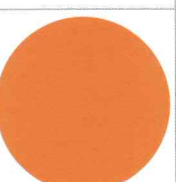

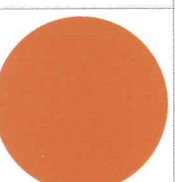

Los colores que presentamos en esta Carta, son los más representativos de la Gama GRADCOLORS. La correcta aplicación de estas tonalidades en todos nuestros productos, les ofrece un amplio abanico de posibilidades y un sinfín de combinaciones.

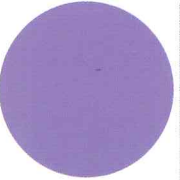

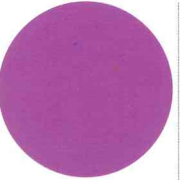

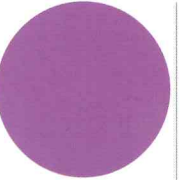

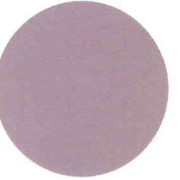

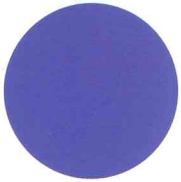

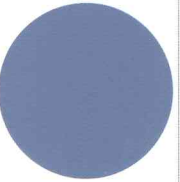

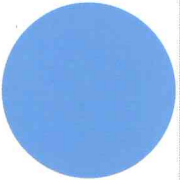

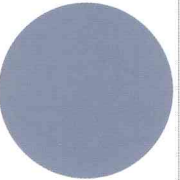

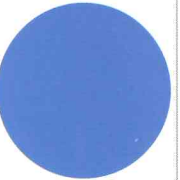

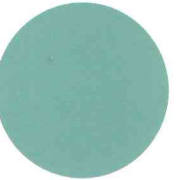

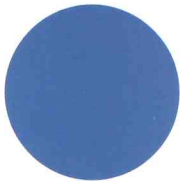

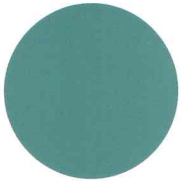

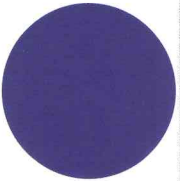

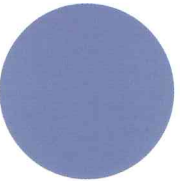

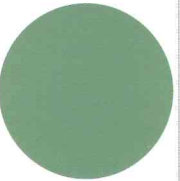

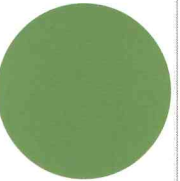

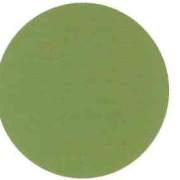

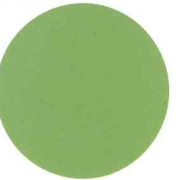

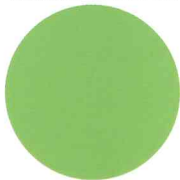

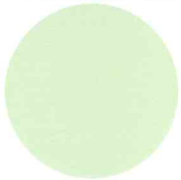

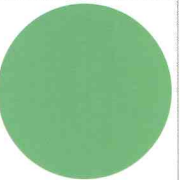

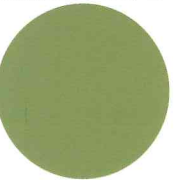

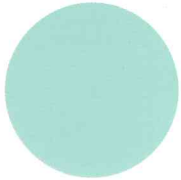

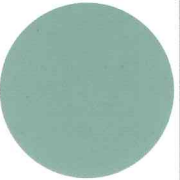

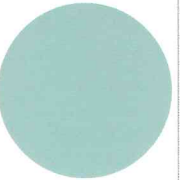

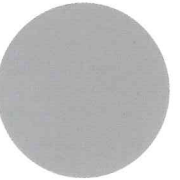

Todas nuestras pinturas están termoendurecidas con un tratamiento especial, poseen una gran estabilidad y flexibilidad y son altamente resistentes a la abrasión y a la intemperie.

La Gama GRADCOLORS está formada por los colores de la carta RAL, N.C.S. y ROLLICOLOR.

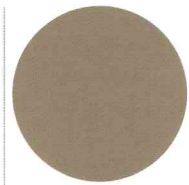

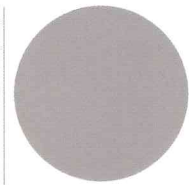

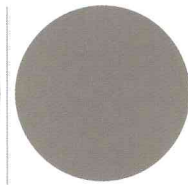

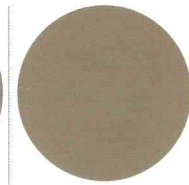

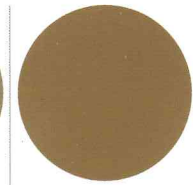

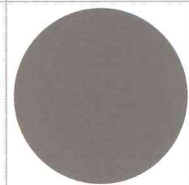

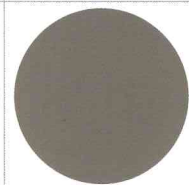

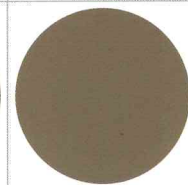

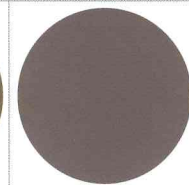

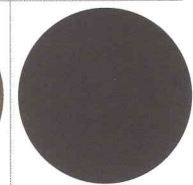

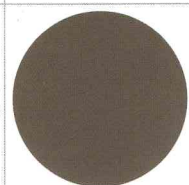

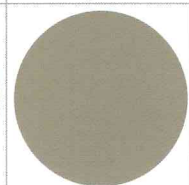

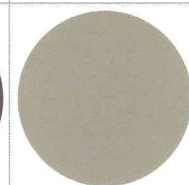

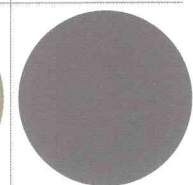

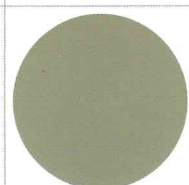

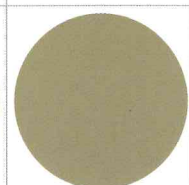

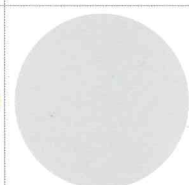

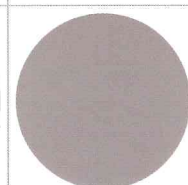

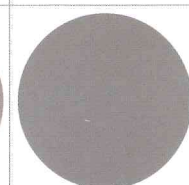

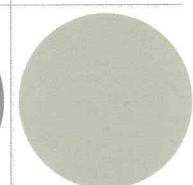

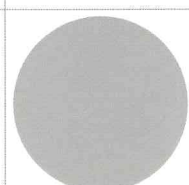

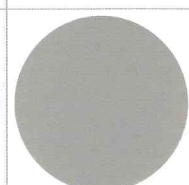

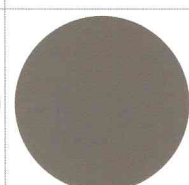

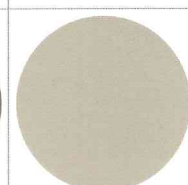

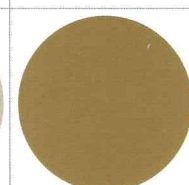

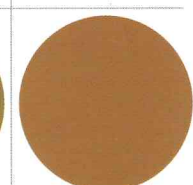

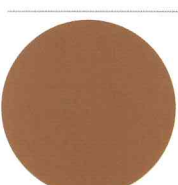

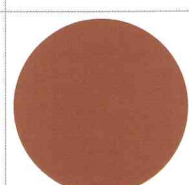

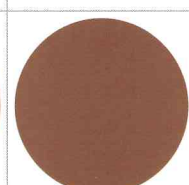

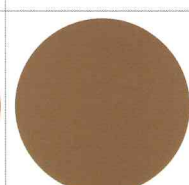

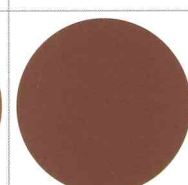

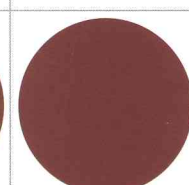

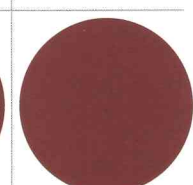

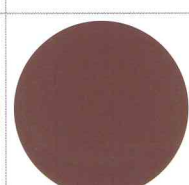

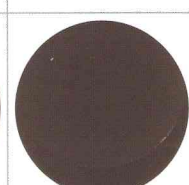

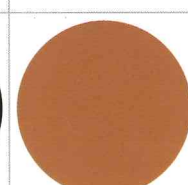

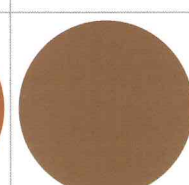

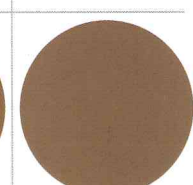

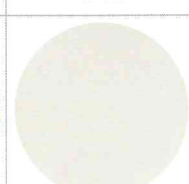

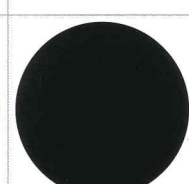

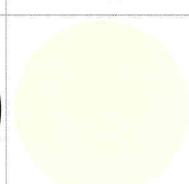

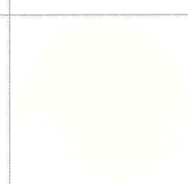

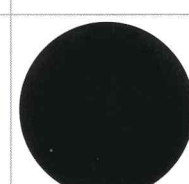

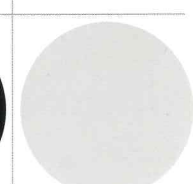

En el momento de decidirse por un color determinado, es importante saber la cantidad de producto y consultar el precio.

						
RAL 1001	RAL 1002	RAL 1003	RAL 1004	RAL 1005	RAL 1006	RAL 1007
						
RAL 1011	RAL 1012	RAL 1013	RAL 1016	RAL 1019	RAL 1020	RAL 1021
						
RAL 1034	RAL 2000	RAL 2002	RAL 2003	RAL 2008	RAL 2010	RAL 2012
						
RAL 3000	RAL 3002	RAL 3003	RAL 3004	RAL 3007	RAL 3009	RAL 3011
						
RAL 3012	RAL 3014	RAL 3015	RAL 3017	RAL 3018	RAL 3022	RAL 4001

Pueden existir pequeñas diferencias de tonalidad y brillo entre los colores de la carta y el producto final, así como entre distintas partidas del mismo color.
