

The values shown are based on tests performed on injection-moulded laboratory specimens, conditioned according to standard protocols, and, unless otherwise indicated, they are data that fall within the typical ranges of the properties of non-coloured materials. Because they are susceptible to variations, these values do not represent a sufficient basis for designing any type of moulded part and must not be used to establish any specific value. The properties of moulded parts can be influenced by a large number of factors such as, but not limited to, the presence of colourants, the type of project, the processing, post-processing and environmental conditions, and use of regrind during the moulding process. Wherever it is specifically indicated that the data are provisional, the actual ranges of the properties must be understood to be broad. The present information as well as technical advice are provided purely for information purposes, and may change without notice. Customers must always make sure that they have the most up-to-date version of the technical indicators. LatI S.p.A. offers no guarantees regarding the accuracy, suitability, reliability, completeness and adequacy of the information given and assumes no responsibility for the consequences of its use or for printing errors. LatI S.p.A. does not provide any guarantee of the suitability of any part of the product following its placement on the market. It is solely the customer's responsibility to verify and test our products in order to determine beyond reasonable doubt whether they are suitable, possibly in combination with third-party materials, for the uses and applications that the customer has in mind for them. This application-oriented analysis must at least include preliminary tests designed to determine the product suitability, from a technical as well as health, safety and environmental perspective, for the customer's particular application. It follows that these checks may not necessarily have been conducted by us, given that the methods and purposes of use are beyond our control. LatI S.p.A. does not accept any responsibility and will not be liable for any damage resulting from use of or reliance on the information provided. No one is authorised to issue any guarantee or indemnity or assume any responsibility on behalf of LatI S.p.A., except by means of a written document signed in full by a specially authorised legal representative. Unless otherwise agreed in writing, the maximum compensation for any claim is replacement of the quantity of non-conforming product or reimbursement of the purchase price, at the discretion of LatI S.p.A., but in no case may LatI S.p.A. be held liable for damages or penalties that might for any reason be requested. No information contained herein can be considered as a suggestion to use any product in a way that breaches intellectual property rights. LatI S.p.A. disclaims any liability arising from actual or alleged patent infringements. Unless otherwise specifically stated in writing, the products mentioned in this document are not suitable for contact with food or for the transport of drinking water, and they are thus suitable for applications in the pharmaceutical, medical or dental sectors. For any other aspect, the LatI S.p.A. Terms and Conditions of Sale apply (copyright © LATI S.p.A. 2018). LATI does not guarantee that the data contained in this list are current, complete and free of errors. To check the values, users are strongly advised to contact the LATI Customer Technical Assistance department or sales network. LATI Industria Termoplastici S.p.A. disclaims any liability arising from use of the information contained in this document.
